News for Faculty and Instructors: Penn State and COVID-19

This weekly email is designed to provide faculty and instructors with Penn State's pandemic-related news and updates. Watch for these emails on Fridays, with additional "special editions" delivered periodically. Previous faculty news digests are [archived here](#). For current faculty guidance, resources, FAQ documents, and more, visit the ["Back to State 2021-2022 Resources"](#) webpage.

IMPORTANT NOTE

The White Building testing site at University Park is closed today (Friday, February 4) due to the campus closure for inclement weather.

LATEST NEWS OF IMPORTANCE TO FACULTY

- The Big Ten/National Wellness Action Alliance, an action collaborative comprised of faculty from each of the Big Ten universities and the University of Kentucky, is bringing together national experts for the new **Wellness Wednesday Webinar Series for Faculty and Staff**, a 13-week collection of half-hour sessions designed to help you build skills, knowledge and confidence to handle stress, optimize health and well-being in yourself and your students, and bring about meaningful change to promote cultures of wellness across your communities. Please click [here](#) to see a list of the sessions and to register.
- As part of its ongoing efforts across many channels to expand Americans' access to free COVID-19 testing, the Biden-Harris Administration is requiring insurance companies and group health plans to cover the cost of over-the-counter (OTC), at-home COVID-19 tests, so people with private health coverage can get them for free starting January 15th. CVS Caremark prescription coverage, a component of Penn State's Aetna health care plans, will now cover the cost of OTC COVID-19 at-home test kits for those employees and their families enrolled in a Penn State health plan. Read the full article [here](#).
- **A message to faculty and instructors from Penn State Contact Tracing and Student Support Services.** Since Fall 2020, Student Support Services has been emailing faculty to alert them that a student in their class is not permitted to attend in-person classes due to isolation or quarantine. Within that notification is a date when the student can return to class safely. Students' isolation and quarantine timeframes are subject to change based on symptoms and test-out options. Presently, faculty may be receiving multiple email updates on one student. Because of the changes in the CDC guidelines that have resulted in a significant increase in Q/I date changes, we are adjusting our processes to notify faculty when a student may not attend class and when they are able to return, as outlined below:

- Faculty and advisers will continue to receive an initial email from Student Support Services with the most conservative date that a student may return to class as determined by Penn State Contact Tracing.
 - If applicable, Contact Tracing will send students emails providing earlier dates on which they can "resume regular activities" if their dates change for some reason (e.g., changes in symptoms, test-out options). Students will be asked to forward this email to their instructors before they return to class. This email will originate from contacttracing@psu.edu. It is appropriate for you to ask to see their email from Contact Tracing if they return to class and did not forward it to you in advance.
 - This new process will streamline communication to faculty and decrease confusion and allow Student Support Services to spend more time reaching out to support students in isolation or quarantine. If there are any concerns regarding notifications received, faculty may contact Student Support Services to get clarification about a student's dates.
 - An updated "Student Quarantine & Isolation" reference guide for faculty has been posted [here](#).
- Researchers in the Edna Bennett Pierce Prevention Center examined [students' sense of belonging with their college](#) amid COVID-19 to determine if feelings of belonging buffer students from adverse mental health.
 - The Flexible Work Arrangements University Implementation team is drafting a [new policy on staff flexible work arrangements](#) to be implemented University-wide.
 - A webinar, "[COVID-19 and Residential Property Sales in Rural Pennsylvania](#)," will be offered as part of the Penn State Extension Winter/Spring 2022 Land-Use Webinar Series.

VACCINATION MANDATE RESOURCES

Apply for a religious accommodation at <https://affirmativeaction.psu.edu/covid-19-information/>. More information is available [here](#).

Apply for a medical/disability-based accommodation at <https://hr.psu.edu/sites/hr/files/COVID19MedicalDisabilityAccommodationRequestForm.pdf>. More information is available [here](#).

Information on where to find a vaccine provider can be found [here](#). Those who have received two shots are urged to get a booster if eligible.

KEY REMINDERS FOR FACULTY

- Students who have not shared with the University that they are fully vaccinated must test weekly throughout the spring semester. Enrolled students who are

noncompliant with the weekly required testing will [lose Canvas access until they become compliant](#).

- At University Park, [drop-in and by-appointment asymptomatic COVID-19 testing is available seven days a week at White Building for students](#) living on or near campus. At all Commonwealth Campuses, student tests will be distributed by the student health center or designated office, or ordered through the mail via the Vault Health mail-in test kit.
- [Students, faculty, staff, and visitors are urged to wear well-fitting, multi-layered masks](#) in accordance with the latest University and federal guidance.
- This [article](#) contains a list of COVID-19-related resources for employees.
- [Faculty can still submit questions](#) related to Penn State's COVID response. Questions may be submitted [here](#).
